

Hedhli Saber

Engineering Degree | **Communications & Networks (GCR)**

+216-92864649 | saberhedhli001@gmail.com | Bizerte, Tunisia | [linkedin.com/in/saberhedhli-HS001](https://www.linkedin.com/in/saberhedhli-HS001)

EXPERIENCE

Hackathon Falsafa - ENIG

2025-2026

IoT Project Lead

Gabes, Tunisia

- **Architected** and **engineered** a full-scale smart campus **IoT** ecosystem integrating solar energy monitoring, automated climate control, and hardware-level presence detection.
- **Developed** a cross-role coordination web application using real-time data streaming to synchronize task allocations between administrators, professors, and field technicians.
- **Coordinated** a 3-person interdisciplinary engineering team under strict time constraints, successfully delivering a fully functional hardware-software prototype.
- **Ranked** 1st among 10+ university teams and qualified to represent ENIG in the inter-university competition.

Tunisie-Telecom

Aug 2025

Network Technician Intern

Bizerte, Tunisia

- **Executed** preventive and corrective maintenance on over 15 ADSL/VDSL telephone lines, decreasing local link downtime and ensuring continuous service availability.
- **Diagnosed** signal attenuation and continuity faults across 15+ lines using NetScan, accelerating critical failure isolation and reducing escalation resolution time.
- **Configured** 15+ customer modems and conducted 30+ comprehensive field maintenance tours, optimizing network synchronization across assigned coverage zones.

PROJECTS

GAN Image Super-Resolution

2026

Deep Learning

- **Implemented** and trained a **Generative Adversarial Network (GAN)** architecture using Python on a standardized benchmark dataset containing over 200,000 images.
- **Optimized** model hyperparameters to achieve sharp 4-times image upscaling, successfully mapping low-resolution inputs to high-definition outputs.
- **Quantified** performance improvements using PSNR, SSIM, and MSE metrics, validating enhanced high-frequency edge reconstruction against standard baseline models.

Real-Time Chat Platform

2025

Node.js / React / MySQL

- **Designed** a full-stack real-time messaging platform using Node.js, React, and MySQL, implementing **WebSocket**-based instant communication with **multi-session** support.

Social Network Platform

2025

Full-Stack Django

- **Built** and **integrated** 6+ core user features, including an interactive AI chatbot, post creation, and dynamic like/follow engines.

EDUCATION

National Engineering School of Gabes (ENIG)

2024 - Present

Engineering Degree | **Communications & Networks (GCR)**

Gabes, Tunisia

Preparatory Institute for Engineering Studies of Kairouan (IPEIK)

2022 - 2024

Preparatory Cycle | Engineering Sciences

Kairouan, Tunisia

ACTIVITIES AND ENGAGEMENT

- **Bureau Member - ENIGROBOTS 7.0**, *international robotics event at ENIG*.
Coordinated an operations team of 30+ student members, directly managing task delegation across 5 specialized sub-teams of 6 to 7 members each to streamline event execution.
- **Organizing Committee - ENIGROBOTS 6.0**
- **Organizing Committee - BATTLESKY 1.0 & 2.0**, *aeronautics event at ENIG*.
- **Member – Alliance of Engineers Club (2 Years | Robotics & Project Divisions)**

OTHER

- **Soft Skills:** Team Leadership & Coordination, Cross-Functional Collaboration, Problem-Solving, Time Management & Prioritization.
- **Technical Skills:** Python, C++, SQL, Git/GitHub, Linux/Ubuntu, ESP32, Raspberry Pi, Machine Learning, Computer Vision.
- **Certifications:** CCNA – Cisco (*Additional credentials available at “ <https://www.credly.com/users/saber-hedhli123> ”*)
- **Languages:** Arabic (native), French (Intermediate), English (B2)
